ABOUT ME

Aspiring Software Engineer seeking campus placement to apply technical skills and build hands-on experience, with a long-term goal of growing into a Project Director role leading innovative technology projects. Demonstrated commitment to learning through hackathons, internships, and self-driven projects. Eager to contribute to dynamic teams and enhance proficiency in full stack development, machine learning, and problem-solving.

SKILLS AND LANGUAGES

Web Development, React, HTML, CSS, JavaScript, Java (OOP, Inheritance, Polymorphism, Encapsulation, Exception Handling), Python (NumPy, Pandas), DBMS, SQL, Machine Learning, Full Stack Development, Data Structures, Problem-Solving, Communication, Team Leadership, Prompt Engineering

English, Hindi, Kannada ,Tulu, Konkani

EDUCATION

B.E. Computer Science & Engineering CGPA - 9.2

SMVITM, Visvesvaraya Technological University

2023 - 2027

Pre-University Course (PUC)

93.33%

Vidyodaya, Karnataka PU Board

2023

SSLC

97.44%

Sri Anantheshwara, Karnataka State Board

2020

ACHIEVEMENTS

- Dhee Coding Lab, Bangalore – Internship Offer Received (Selected after clearing aptitude test and group discussion rounds , Received internship offer for the upcoming program.)
 - Winner — Prompt to Product Competition, SMVITM
 - College Best React Application Award, SMVITM
 - My First Ideathon & Hackathon — JNNCE College, Shimoga, 2025
 - Udhbhava Hackathon — NITTE, Mangalore, 2025
 - Hakotsava Hackathon — SMVITM College, 2025
 - Collaborated in a team to develop three applications under time-constrained hackathon environments.
 - Contributed to design, development, testing, and presentation of project solutions.
-

CERTIFICATIONS

- AI Literacy – Digital Credential and Certificate of Completion (IBM SkillsBuild)
 - WebWorks Workshop – Fundamental Skills in HTML, CSS, and JavaScript
 - Git and GitHub Hands-on Workshop
 - Introduction to Cybersecurity Awareness – HP LIFE & HP Foundation
 - Effective Leadership – HP LIFE Online Course
 - Innovation and Design Thinking (COMED KARES) – Demonstrated Prototyping Skills for Community Problem Solving
 - Build It All: A Deep Dive into Full-Stack Engineering – Five-Day Student Workshop (IEEE)
 - IndiaAI Impact Hackathon – Certificate of Achievement
 - TechLead: Professional Skills for Next-Generation Engineering – IEEE SPAX & IEEE Foundation
 - Financial Literacy – Value Aided Certificate
 - Multiple Hackathon Participation and Achievement Certificates
-

PROJECTS

Coastal Line Soil Erosion Detection (Ongoing)

- Developing a machine learning-based system to identify and monitor coastal erosion patterns.
- Applying data analysis and **ML** techniques for environmental monitoring and prediction.

Graph-Based Social Network Platform

Technologies: **Node.js, Express.js, Neo4j, Cypher, HTML, CSS, JavaScript, Docker**

- Developed a graph-based social networking application using Neo4j and Node.js.
- Modeled users as graph nodes and friendships as relationships to efficiently represent social connections.
- Implemented user registration, friendship management, and friend-of-a-friend (second-circle) search functionality using Cypher queries.
- Built RESTful APIs with Express.js and designed an interactive frontend for managing users and connections.
- Utilized Docker for local deployment and management of the Neo4j graph database.

Airline Management System

- Developed a full-stack airline management system using **Java, JDBC, and MySQL**.
- Implemented flight booking, passenger management, user authentication, and database operations.

Weather App

- Built a responsive weather application using **HTML, CSS, JavaScript, and Weather API**.
 - Displays real-time weather information based on user location and city search.
-

INTERESTS

Counseling Cell & Peer Student Support Member, Team Leader in Presentations & Mini-Projects, Participant in Hackathons & College Events, Front-End Development, Machine Learning, Prompt Engineering, Communication & Interpersonal Skills
